student and professional metrioni and moment ineverses going aream, thever gave up, regardless or the difficulties that the area entails".

Elena A. (21) – IT technician, Chamber of **Industry and Commerce of Zaragoza**

I'm Elena A. a Young girl from a village in Aragón (Spain). I studied in the high school of my village and, when I finished the compulsory secondary education, the closest and easiest option I had was to study baccalaureate. At that time, I didn't know what I really wanted to study, I was interested in many things, but by then none of them really caught my attention to study it and develop it in the future. During the first year of baccalaureate I realised that the subject that interested me the most was informatics, I had some previous knowledge because my brother was studying computer science, so I decided to go deeper into this subject and go further in my knowledge about computers. I couldn't study that in the village so I decided to move to Zaragoza to study for an intermediate VET degree in microcomputer systems and networks. I was warned that it is usually a "men" degree, however this

was not an inconvenience for me. I never thought that this would be a problem or that I would not be able to pass the tests in the same way that they do.

On the first day of school I was nervous because I didn't know if I was the only girl in class or if there were more women interested in computer science and informatics. Actually, in the course we started four girls, however two of them left the course, last year we were only two girls in a group of 30 people. All my classmates told me that it was very rare to find girls who liked computers and informatics

E-platform for experience exchange on WBL

E-platform for experience exchange on WBL

This e-platform for experience exchange is the last result of our project.

This partnership firmly believes the information exchange is the key for the creation of shared knowledge among different stakeholders, professionals and people interested in WBL across Europe, this is one of the main ideas we have kept in mind through the development of Deep in WBL project. For this reason, we have created this e-platform for collaboration, in this space you can share resources, experiences, ideas, doubts or another information regarding WBL with different professionals and stakeholders across Europe.

Remember that you need to be registered in order to take part of this collaboration platform. Please, download and read the user guide in order to know how to register and start collaborating.

Cámara Zaragoza trabajará en cuatro nuevos proyectos de Erasmus+

 A partir de septiembre desarrollará estas acciones enfocadas al ámbito de la formación profesional y continuará con otra que ya tiene en marcha

Zaragoza (31/07/2018). El Servicio Español para la Internacionalización de la Educación (SEPIE) – Organismo Autónomo que depende del Ministerio de Ciencia, Innovación y Universidades - ha concedido este mes ayudas por un importe total de 26.671.378 €, que permitirán financiar en España un total de 145 proyectos destinados a promover actividades de cooperación para la innovación y el intercambio de buenas prácticas, en concreto de Asociaciones Estratégicas, vinculadas a instituciones españolas del ámbito de la educación y la formación, dentro del programa de la Unión Europea Erasmus+. Después del verano, la Cámara de Zaragoza trabajará en cuatro de estos proyectos, vinculados a la Formación Profesional, dos aprobados por la agencia nacional española y otros dos por agencias Erasmus de otros estados miembros.

Deep in WBL - Deepining WBL Impact & womeN empowerment

http://www.deepindualvet.eu/

Deep IN WBL is dedicated to some of the current challenges in the context of Work-Based Learning: the political control and the involvement of social partners, the support for training companies, making dual forms of training more attractive, quality assurance issues and the improvement of the number of women taking part in dual forms of training.

Deepening WBL Impact & womeN empowerment (Deep IN WBL)

Coordinator: Cámara Oficial de Comercio e Industria de Zaragoza

ERASMUS+ KA2: 2018-1-ES01-KA202-050222 2018-2020

The main goal of the project is fostering a closer engagement in WBL by promoting a better understanding of:

- ▼ The role of the different professionals involved in the implementation of the WBL
- ▼ The practices implemented to strengthen cooperation between teachers and trainers
- ✓ The practices implemented to empower women in WBL

Main deliverables planned in this project are:

- Inventory on job profiles of professionals in WBL
- ✓ Inventory on legal frameworks regulating professionals in WBL
- ✓ Inventory on successful cooperation structures between teachers and trainers
- ✓ Inventory on successful experiences to boost participation of women in WBL
- Guide on new cooperation paths
- ✓ Final e-publication
- ✓ An e-platform for experience exchange amongst stakeholders.

Summary in English

The main goal of the project was fostering a closer engagement in work-based learning (WBL) by promoting a better understanding of: the role of the different professionals involved in the implementation of the WBL; the practices implemented to strengthen cooperation between teachers andtrainers to improve the quality of VET, its responsiveness to the labour market needs and ensuring learners high quality learning experiences and the practices implemented to empower women in WBL. You can benefit from our study results and exchange with other WBL practitioners on the E-Platform.

EU-Vergleich zum arbeitsplatzbasierten Lernen

ID: 1873183

Information about project results and their added value for German-speaking community, invitation to exchange on DeepinWBL ePlatform

(firmenpresse) - In Deutschland sind wir, im Vergleich zu anderen europäischen Ländern, schon sehr weit damit, die Ausbildung auf möglichst praktische Beine zu stellen. Das ist auch nicht schwer, bedenkt man, wie die Strukturen über einen langen Zeitraum gewachsen sind

und sich "verselbstständigt" haben. Jeder kennt das System der dualen Ausbildung. Es gilt für uns als anerkanntes, wertgeschätztes System, mit dem man sich beruflich weiter entwickeln kann. Kammern, Schulen und Betriebe wissen um ihre Rollen in der Dualen Ausbildung.

Dennoch sollte man hin und wieder einen Blick auf das (für uns) Selbstverständliche werfen. Das haben wir im Erasmus+ Projekt "Deep in WBL" erfolgreich getan. Hierbei muss berücksichtigt werden, dass EU-weit arbeitsplatzbasiertes (praktisches) Lernen in der formalen Berufsbildung Vieles umfassen kann: von schulischen Ausbildungen mit einem kleinen praktischen Anteil bis zur dualen Form. Das heißt, in den einzelnen EU-Staaten wird arbeitsplatzbasiertes Lernen unterschiedlich ausgelegt und umgesetzt.

Partner aus Spanien, Italien, Griechenland, Portugal, Österreich und der Türkei kamen für das Projekt zusammen, um folgende Punkte näher zu untersuchen:

Ausbilder ist nicht gleich Ausbilder: Es wurde die Vielfalt der Arten von Lehrer*innen und Ausbilder*innen untersucht, die Lehrlinge praktisch anleiten. Wie nennt man diese eigentlich in den unterschiedlichen Ländern? Welche konkrete Rolle haben sie? Wie sieht ihr Arbeitsumfeld aus? Welche Ausbildung befähigte sie zu ihrem Beruf?

Rahmenbedingungen erleichtern die Arbeit: Hier wurden die konkreten gesetzlichen Vorgaben untersucht, unter denen arbeitsplatzbasiertes Lernen stattfindet.

Kooperation bringt alle voran: Ein Augenmerk wurde auch auf die bestehenden Aktivitäten der Zusammenarbeit zwischen Schule und Betrieb gelegt. Wie funktioniert diese eigentlich? Ist sie irgendwo geregelt? Wer kooperiert eigentlich mit wem? Oder auch nicht? Schließlich wurden mögliche, erfolgsversprechende Wege der Zusammenarbeit zusammengetragen, damit jeder davon profitieren kann.

Exposición en Grecia

Durante los días 27 y 28 de noviembre tendrá lugar en *Larissa* (*Grecia*) la 4ª movilidad transnacional del proyecto Erasmus+ KA2 (2018-1-ES01-KA202-050222) "Deepening WBL impact and women empowerment" que como hemos comentado en anteriores ocasiones participan tanto Institutos de FP, Consultoras de Formación, Cámaras de Comercio y demás perfiles especializados en el ámbito de la formación profesional DUAL, analizando además, el papel de la mujer en este tipo de formación.

El cometido de realizar esta 4ª fase del proyecto recae sobre el departamento de **Higiene Bucodental** de **Instituto INTER**, compuesto por 4 docentes (Laura Domenech, Beatriz Castillo, Cristina Escobar y Marga Suárez), todas ellas mujeres con experiencia en la formación DUAL.

En esta ocasión, nuestra compañera Laura Domenech es la profesora elegida para viajar hasta Larissa y exponer el trabajo que han realizado durante esta fase. Ella tendrá la responsabilidad y el orgullo de presentar tanto las actividades de difusión que se han llevado a cabo durante la ejecución del proyecto, como la relación de iniciativas y experiencias de éxito en formación DUAL y las medidas para impulsar el papel de la mujer.

4th Post about the project: 4th transnational meeting

Laura Domenech (Inst. INTER) y María Marco (Cámara Comercio Zaragoza)

¡Enhorabuena a Laura y al resto de profesoras de Higiene Bucodental por la predisposición e implicación en el desarrollo del proyecto!

Esperamos la vuelta de nuestra compañera para que nos informe de los avances realizados y las tareas propuestas para la siguiente fase.

Project ID: 2018-1-ES01-KA202-050222

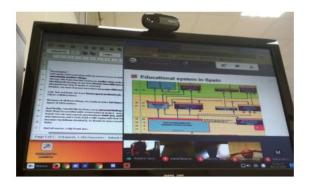

C institutointer.com/reunion-con-socios-europeos-de-deep-in-wbl/

La pasada semana realicé como representante de Instituto INTER, una última videoconferencias con nuestros socios del proyecto europeo Work Based Learning.

¿Recordáis en que consistía? Pues en compartir información entre 7 países europeos (Portugal, Grecia, Italia, Austria, Alemania, Turquía y España) con diferente trayectoria en la formación, pero con un eje en común, que este aprendizaje está basado en el trabajo. Además nos centramos, con especial interés, en la formación Dual y en la inserción femenina (principalmente en sectores masculinizados).

Post about the project: Last transnational meeting

Durante estos dos años hemos podido entender mucho mejor cuál es el papel de cada uno de los actores (cámaras de comercio, centros de formación profesional, empresas y administraciones públicas) que intervienen en este tipo de formación. También hemos visto como todos podemos aprender buenas prácticas de otros países donde este tipo de formación lleva décadas funcionando.

Desde que hace unas semanas nos hablaran de este proyecto (2018-1-ES01-KA202-050222), el primer adjetivo que me vino a la cabeza fue "susti-gusti". Lo oí a una actriz en la tele hace unos meses y se lo he cogido prestado. Para que se entienda bien, es algo que da "susti", que impone un poco, es un reto... y por otro lado, es "gusti", es decir, que mola. Ahora, a toro pasado, veo que poder participar en este proyecto tan interesante ha sido una verdadera gozada.

Quizá la inquietud inicial vino porque era mi primera reunión internacional, con colegas desconocidos, en otro idioma... pero desde que en el departamento nos hablaron de los objetivos del proyecto, fue muy motivador. Resumiendo, se trata de intentar encontrar formas de mejorar la empleabilidad de l@s estudiantes a través de la Formación Profesional, principalmente la Dual, haciendo especial hincapié en promover la inserción femenina para intentar llegar a igualarse con las tasas masculinas.

La experiencia de esta 4ª movilidad transnacional a Larissa (Grecia) ha sido muy interesante, y especialmente enriquecedora, ya que entre todos países socios participantes, la FP tiene muchísima variabilidad. Hay países en los que se lleva desarrollando de forma espectacular, con mucha experiencia y camino recorrido, como son Austria y Alemania. De ellos podemos aprender mucho y empezar a darle forma a nuevas iniciativas. Tenemos todavía mucho por hacer. Pero por otro lado, podemos ser un modelo a corto-medio plazo para algunos países donde la FP Dual está despegando (es el caso de Italia y Grecia), por lo que estos colegas pueden empaparse de todas las experiencias que el resto de países hemos puesto en común.

3rd Meeting of the DEEP IN WBL project at Fürstenwalde

On 25th and 26th of June took place the third meeting within the DEEP IN WBL (Work-Based Learning) project between the Spanish, Greek, Austrian, Portuguese, Italian, Turkish and German partners coordinated by Camera de Zaragoza. The project started since October 2018, with the first two meetings respectively in Valencia and Vienna.

After a general overview furnished by Camera of Zaragoza, the meeting consisted of an implementation phase, where the previous results achieved where commented and further deepened and a management-monitoring-communication phase in order to proceed jointly towards the same outcomes within a shared and coherent action plan.

For each part there has been a joint discussion and debate between the partners followed by an assessment of the results achieved until now.

SUSCRÍRE

El proyecto *Deep in WBL* ha llevado a cabo su reunión final con la participación de GEINNOVA este pasado miércoles 11 tras dos años de consultoría e intercambio de información. Se trata de un proyecto compuesto por seis países – Portugal, Grecia, Italia, Austria, Alemania y España – liderado por Cámara de Comercio de Zaragoza sobre el fomento del "sistema de formación dual", que consiste en una nueva forma de formar en el puesto de trabajo para aplicar los contenidos aprendidos.

Na semana passada, entre 5 e 6 de fevereiro, o consórcio do projeto Deep in WBL – Deepening WBL Impact & Women empowerment, reuniu-se em Viena, Áustria, para a segunda reunião do projeto.

Durante um dia e meio, foi apresentado o primeiro resultado do projeto, o inventário dos perfis laborais dos profissionais do WBL, e as suas alterações finais foram definidas. Os próximos resultados foram também discutidos entre todos os parceiros de forma a alcançar o melhor resultado possível. Nos próximos meses mais dois resultados serão concluídos e disponibilizados: o Inventário sobre o quadro jurídico que regula os profissionais de WBL e o Inventário sobre estruturas de cooperação bem sucedidas entre professores e formadores. As atividades transversais, nomeadamente a disseminação e comunicação e avaliação, foram também discutidas e novas estratégias foram definidas.

Resultados e futuro do projeto Deep in WBL – Deepening WBL Impact & Women

Project ID: 2018-1-ES01-KA202-050222

Last month, between 25th and 26th June, partners from the project Deep in WBL – Deepening WBL Impact & Women empowerment met for the third time in Fürstenwalde/Spree, Germany. This very fruitful meeting was an opportunity to discuss the results already developed as well as the future work.

In the historic brewery of the city, the consortium partners shared their accomplishments in the project. The first and second results: Inventory on job profiles of professionals in WBL and Inventory on legal frameworks regulating professionals in WBL were presented and validated. Then, all partners shared their inputs in the third result Inventory on successful cooperation structures between teachers and trainers which is still ongoing. Based on the presentations and discussion that followed, the final steps were defined. Soon, this Inventory will be available for consultation on the project website. To finalize the first day, the consortium had the pleasure to receive representants from the main project target groups: school, company and chamber of commerce for a sharing of experiences and a very productive discussion about the WBL.

No mês passado, entre 25 e 26 de junho, os parceiros do projeto Deep in WBL – Deepening WBL Impact & Women empowerment encontraram-se pela terceira vez em Fürstenwalde/Spree, Alemanha. A reunião foi uma frutuosa oportunidade para discutir os resultados já desenvolvidos, assim como o trabalho futuro.

Na cervejaria histórica da cidade, os parceiros do consórcio partilharam as suas conquistas no projeto. O primeiro e segundo resultado: Inventário sobre perfis de trabalho de profissionais inseridos na aprendizagem em contexto de trabalho e Inventário de quadros jurídicos que regulam profissionais nesta mesma área foram apresentados e validados. Depois, todos os parceiros partilharam os seus contributos no terceiro resultado: Inventário de resultados sobre uma cooperação bem sucedidas entre professores e formadores, que ainda está a ser desenvolvido. Com base nas apresentações e na discussão consequente, as etapas finais foram definidas. Em breve, este Inventário estará disponível para consulta no <u>site do projeto</u>. Para finalizar o primeiro dia, o consórcio teve o prazer de receber representantes dos principais grupos-alvo do

To: mariapaulafernandes4@gmail.com
Subject: INOVA+ | Projeto Deep IN WBL - Aprendizagem baseada no trabalho

Cara Professora Maria Paula Fernandes do Agrupamento de Escolas de Carvalhos,

O meu nome é Luís Morais e estou a entrar em contacto por parte da <u>INOVA+ - Innovation Services S.A.</u>, uma empresa com sede em Matosinhos focada em três áreas distintas: Consultadoria (serviços para clientes), Digital (desenvolvimento de soluções digitais) e Internacional (candidaturas e gestão de projetos).

Num dos departamentos da unidade Internacional, a empresa está inserida em projetos no âmbito do programa Erasmus+, tanto na vertente de coordenadora como parceira.

Um desses projetos é o <u>Deep IN WBL</u>, inserido na "Ação-Chave 2: Parcerias Estratégicas para o Ensino e Formação Profissional", dedicado aos desafios do *Work-Based* Learning (aprendizagem baseada no trabalho).

Neste âmbito, gostaria de solicitar a colaboração para o preenchimento de um pequeno questionário (tempo de resposta entre 2 a 5 minutos).

Os objetivos são identificar boas práticas e desenhar estratégias de melhoria no sentido de ajudar os centros/escolas de formação profissional e as empresas a desenvolverem uma cooperação mais eficaz.

O questionário encontra-se no seguinte endereço: Questionário - Projeto Deep IN WBL

Para uma maior amostra e conclusões dos resultados ao questionário, é importante o maior número possível de respostas. Agradecia imenso a divulgação pelos profissionais da instituição.

Obrigado pela atenção.

Estou disponível para qualquer questões ou dúvidas que possam surgir.

Com os melhores cumprimentos,

Luís Morais PROJECT MANAGER

Co-funded by the Erasmus+ Programme of the European Union

Project ID: 2018-1-ES01-KA202-050222

In order to promote work-based learning in Vocational Education and Training (VET), six publications, a website and an electronic platform have been produced. The project "Deepening WBL Impact and WomeN empowerment (DEEP IN WBL)" has now been completed.

After two years of research with the main objective of promoting work-based learning, this European project, funded by the Erasmus+ Programme, has been able to share knowledge and good practices in the field of work-based learning systems, and especially in dual vocational training. Two chambers of commerce, one public education administration, three VET institutes, one non-governmental institution and three tertiary sector companies from seven countries (Spain, Portugal, Italy, Austria, Germany, Greece and Turkey) have been part of the same.

Knowing the roles and responsibilities of the professionals involved in these learning systems, how they cooperate with each other, how they could improve this cooperation and what programmes the different participating countries have in order to promote women's participation in them have been some of the topics discussed during the period of implementation of this project. The biggest challenge has been the development of an "Inventory of Successful Experiences to Enhance Women's Participation in Work-Based Learning Systems", which has enabled country programmes to promote such participation

HIGHLIGHTS

Project ID: 2018-1-ES01-KA202-050222

O projeto "Deepening WBL Impact and WomeN empowerment (DEEP IN WBL)" terminou. Com o objetivo de promover a aprendizagem no ensino e formação profissional (EFP) baseada no trabalho, foram produzidas seis publicações, um website e uma plataforma eletrónica.

Após dois anos de investigação com o principal objetivo de promover a aprendizagem baseada no trabalho, este projeto europeu, financiado pelo Programa Erasmus+, conseguiu partilhar conhecimentos e boas práticas no dominio dos sistemas de aprendizagem baseados no trabalho, e especialmente na formação profissional dual. Duas câmaras de comércio, uma administração pública de ensino, três institutos de ensino e formação profissional, uma instituição não governamental e três empresas do setor terciário de sete países (Espanha, Portugal, Itália, Áustria, Alemanha, Grécia e Turquia) fizeram parte deste consórcio.

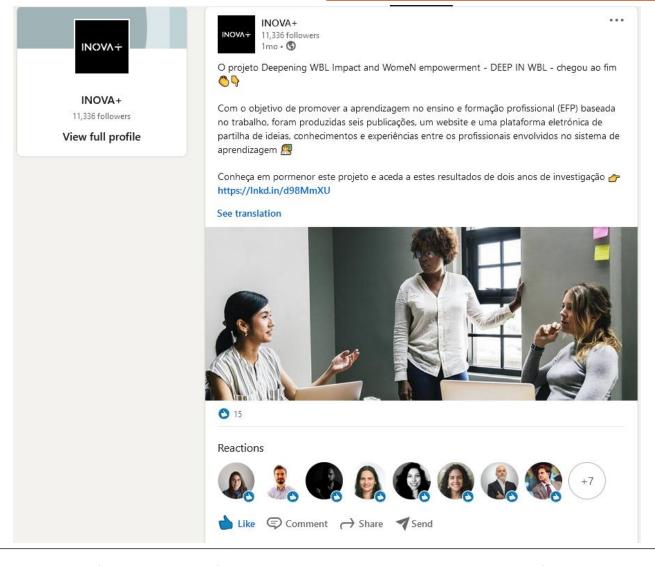

Conhecendo os papéis e as responsabilidades dos profissionais envolvidos nesses sistemas de aprendizagem, como cooperam entre si, como podem melhorar essa cooperação e que programas os diferentes países participantes têm para promover a participação das mulheres foram alguns dos temas discutidos durante o período de implementação do projeto. O maior desafio foi o desenvolvimento de um "Inventário de Experiências Bem-sucedidas para Melhorar a Participação das Mulheres em Sistemas de Aprendizagem Baseados no Trabalho", que permitiu que os programas nacionais promovessem essa participação entre as jovens, bem como exemplos reais de mulheres. O

Heißer Herbst und viele neue Projektel

Liebe Leserinnen und Leser

wir dürfen Ihnen gleich zwei neue Gesichter bei abif präsentieren: Der Sozioökonom <u>Lukas</u>
<u>Grabowski</u> und die angehende Soziologin und Psychologin <u>Agnes Dürr</u> unterstützen abif
seit Sommer 2018 als wissenschaftliche/r Projektmitarbeiter/in.

Auch freuen wir uns, <u>Martin Stark</u> nach seiner Bildungskarenz (Statistikstudium) wieder bei uns begrüßen zu dürfen. Damit sind wir breit aufgestellt, um die nationalen und europäischen Projekte erfolgreich anzugehen.

Gleich vier neue europäische Projekte starteten im Herbst 2018 und drei ausgewählte Leuchtturmprojekte, in unseren Kernthemen Arbeitsmarktforschung, Gesundheitsevaluation und Bildungs- und Berufsberatung, dürfen wir Ihnen vorstellen.

Wir freuen uns, Sie auch nächstes Jahr wieder bei unseren Veranstaltungen zu sehen und wünschen einen guten Start in die Eishockey- und Ski-Saison!

Ihr abif Team

1. Rückblick: Erste Jahreshälfte 2018

Tagung: Arbeitsmarktintegration von Asylberechtigten und subsidiär Schutzberechtigten

Die "Arbeitsmarktintegration von Asylberechtigten und subsidiär Schutzberechtigten" ist der Schlüssel, um diese Menschen auch gesellschaftlich nachhaltig zu integrieren. Wie dies gelingen kann, war Thema der Fachtagung am 9. Oktober in Wien.

Auf der Suche nach Lösungen kamen etwa 100 Personen, um sich mit Akteurinnen aus Forschung und Praxis auszutauschen. Anschließend an die Keynote zum 50-Punkte-Plan für integration wurden in de Podiumsdiskussion Erfahrungen aus der täglichen Praxis geteilt. Diskutiert wurde über potenzielle Entwicklung von Angeboten und Integrationsmaßnahmen und besondere Herausforderungen bei der Ausbildung und Jobsuche bei jungen Menschen sowie über die Fragen, wie die vorhandenen Fähigkeiten der Arbeitssuchenden identifiziert werden können und die sich Asyberechtigte zur Unternehmensgründung animieren lassen.

Zur Dokumentation

Tagung: International Job Broker Conference

Die "International Job Broker Conference" fand am S. Juli 2018 in Wien statt und markierte den Abschluss des 3-jährigen Job Broker Projekts. Im Fokus der Konferenz standen das Berufsbild des Job Brokers vor dem Hintergrund aktueller Trends in der aktiven Arbeitsmarktpolitik in Europa, der Job Broker Curriculum und dessen praktische Umsetzung am Beispiel Islands sowie praktische Beispiele von Job Brokering in unterschiedlichen Kontexten und Ländern.

Projekt-News

Evaluierung des Programms "Tipptopp. Gesund im Mund und rundherum" der Wiener Gesundheitsförderung (WiG)

Das mittlerweile flächendeckende Mundgesundheitsförderungsprogramm "Tipptopp. Gesund im Mund und rundherum" wurde im Jahr 2000 unter dem Namen "Tipptopp Kariesstopp" als Pilotprojekt in zwei Wiener Bezirken gestartet. Seitdem gab es zahlreiche Ausweitungen zum Ausbau der gemeinsamen Aktivitäten zur Förderung der Mundgesundheit durch Wiener Gesundheitsförderung und Wiener Gebietskrankenkasse. Die Finanzierung erfolgt über den Wiener Landesgesundheitsförderungsfonds, der im Rahmen der Gesundheitsreform von den Wiener Sozialversicherungsträgern und der Stadt Wien eingerichtet wie Gesundheitsreform von den Wiener Sozialversicherungsträgern und der Stadt Wien eingerichtet wien.

Die Evaluierung berücksichtigt in ganzheitlicher Weise – basierend auf dem Ergebnismodell der Gesundheitsfürderung Schweiz – sowohl die Planungs-, Struktur- und Prozessqualität sowie Reichweite und Akzeptanz der Maßnahmen zur Gesundheitsfürderung als auch die Ergebnisqualität des Programms.

Die formative und summative Evaluierung des Programms "Tipptopp. Gesund im Mund und rundherum" wird mit einem Bündel an unterschiedlichen qualitativen wie quantitativen Methoden an Wiener Kindergärten sowie Schulen der Primar- und Sekundarstufe realisiert, um relevante Optimierungsvorschläge für die Zukunft zu liefern

Projektleitung: Mag. Andrea Egger-Subotitsch Laufzeit: 09/2018 - 12/2019 Auftraggeberin: Wiener Gesundheitsförderung (WiG)

Frisch und munter – wunderbar, abif wird bald schon 20 Jahr'!

Liebe Leserinnen und Leser,

heuer dürfen wir unser zwanzigstes Jubiläum feiern. abif wird älter – Grund genug um einen Arbeitsschwerpunkt auf die Arbeitsmarktchancen sowie auf den Beratungsbedarf von Menschen über 50 Jahren zu legen.

2018 hat ABIF erstmals den Kompaktlehrgang für Job Broker angeboten. Mittlerweile wurden mehr als 100 Wiener ArbeitsvermittlerInnen im Rahmen dieser viertägigen Weiterbildung in Arbeitsrecht und Recruiting bzw. passgenauem Matching geschult. Am 7.6.2019 startet bereits der dritte Lehrgang: Zur Information und Anmeldung.

Außerdem wurde das <u>EU-Projekt Jobbroker</u> von der britischen Nationalagentur <u>als Best Practice-Projekt ausgezeichnet!</u>

Mit den folgenden laufenden Projekte werden alle vier Kernbereiche von abif abgedeckt – Forschung, Evaluation, Methoden- und Curriculumentwicklung: Evaluierung des Programms "Tipptopp. Gesund im Mund und rundherum" sowie Entwicklung neuer Methoden in zwei Handbüchern (Informationsmanagement und Kompetenzerfassung).

Danke für die treue Wegbegleitung

Ihr **abif** Team

a f

Forschung: 50+ (Beratungsbedarf und Jobchancen)

Evaluation: Mundgesundheit

Methoden: Infomanagement und Kompetenzen

Curricula: EU-Projekte

Verbesserung der Bedingungen für Arbeitsuchende ab 50

Zu den AMS-Kundinnen zählen immer mehr "ältere", d.h. mindestens 50-jährige, Personen. Die Erhöhung der Erwerbsbeteiligung älterer ArbeitnehmerInnen gehört daher zu den prioritären Bereichen der Beschäftigungspolitik des AMS. Doch auch die Beratung im AMS ist an die spezifischen Hindernisse und Bedürfinisse älterer Menschen anzupassen und gezielt zur Förderung des aktiven Älterwerdens bzw. zur Reduktion der Altersarbeitslosigkeit einzusetzen.

Um dies zu gewährleisten, ist der Wissenserwerb darüber, welche Faktoren auf Bewerberinnenseite (z.B. Einstellungs- und Verhaltensaspekte) und welche Faktoren auf Arbeitgeberinnenseite (z.B. Kompetenzen, Auftreten) die Reintegrationschancen älterer Bewerberinnen negativ oder positiv beeinflussen, maßgeblich.

Basierend auf einem Mixed Methods-Ansatz (halbstandardisierte Telefonbefragungen von 500 Kundinnen, qualitatives Kundinnenpanel über 6 Monate, Expertinneninterviews, Analyse von Vermittlungsdaten) werden Strategien zur erfolgreichen Arbeitsmarktintegration älterer Kundinnen formuliert, die sich an die Bewerberinnen selbst, an die AMS-Beraterinnen und an das AMS als Organisation richten können.

Projektleitung: Mag.ª Andrea Egger-Subotitsch

Laufzeit: 08/2018 - 05/2019 Auftraggeber: AMS Österreich

Zielgruppen- und Bedarfsanalyse für die Inanspruchnahme von Bildungs- und Berufsberatung durch Ältere

Neben dem Alter spielen bei Älteren noch andere Vermittlungshemmnisse eine entscheidende Rolle. So wird durch BeraterInnen etwa das Vorhandensein von gesundheitlichen Einschränkungen körperlicher oder psychischer Natur sowie mangelnde Kenntnisse z.B. im Bereich Neuer Technologien ins Treffen geführt. Auch Betreuungspflichten, längere Phasen der Berufsunterbrechung durch Karenz oder auch mangelnde Deutschkenntnisse beeinflussen die Vermittelbarkeit negativ.

Das nunmehrige Projekt soll also in Form einer literaturbasierten Recherche, in Form von Expertinneninterviews sowie in Form einer umfassend angelegten standardisierten Online-Erhebung mit relevanten Akteursgruppen den Zielsetzungen der Bildungs-, Arbeitsmarkt- und Berufsinformation des AMS einen hilfreichen und zukunftsorientierten Aufschluss darüber geben, in welcher zielgruppengerechten Form (Medienmix, Medienkanäle, Beratungsformate) welche Inhalte der Öffentlichkeit, sprich sowohl den Älteren als auch den einschlägig aktiven Bildungs- und Berufsberaterinnen, zur Verfügung gestellt werden (sollen).

Das geplante Projekt dient dazu, ausgewählte rezente nationale, aber auch exemplarisch internationale Erfahrungen (Good Practices) aufzuarbeiten, Trends abzuleiten und in den Kontext der Berufs- und Arbeitsmarktinformation des AMS zu stellen. Dabei sollen auch explizit bestehende Angebote des AMS, und hier v.a. der Abt. Arbeitsmarktforschung und Berufsinformation, in den Erhebungskontext der ExpertInnenbefragung wie auch der österreichweiten Online-Erhebung eingebunden werden.

AN INTERVIEW WITH ROBERT FRASCH, ONE OF THE LEADING EXPERTS ON APPRENTICESHIP TRAINING IN AUSTRIA AND EUROPE ABOUT NEW COOPERATION PATHS IN DUAL TRAINING. IT WAS PUBLISHED IN ONE OF THE PUBLICATION FORMATS OF THE "AMS FORSCHUNGSNETZWERK" (RESEARCH NETWORK OF THE AUSTRIAN PES) WHICH CAN BE CONSIDERED ONE OF THE MAJOR RESEARCH JOURNALS ON TOPICS IN RELATION WITH LABOUR MARKET & VET.

Oktober 2020 www.ams-forschungsnetzwerk.at

Robert Frasch (Interview)

Ausbildungsverbünde als Good Practice für duale Ausbildungsprogramme Robert Frasch, Experte für duale Ausbildung, im Gespräch

Das im Herbst 2020 abgeschlossenen Erasmus+ Projekt »Deepening Work-Based Learning Impact & womeN empowerment«' widmete sich dem gegenseitigen Austausch der Partnerländer zu dualen Berufsausbildungsprogrammen. Für die Projektpartner aus Ländern wie Portugal, Spanien, Türkei und Griechenland, wo duale Ausbildungsformen noch im Aufbau begriffen sind, war das österreichische Modell der Ausbildungsverbünde von besonderem Interesse. Bei der Ausbildung im Verbund übernehmen Partnerbetriebe und Weiterbildungseinrichtungen die Vermittlung von Fertigkeiten, die im Lehrbetrieb selbst nicht ausgebildet werden können bzw. von Lehrlingen zusätzlich erworben werden können. Der österreichische Experte für duale Ausbildung Robert Frasch beschreibt im vorliegenden Gespräch relevante Aspekte und seine Perspektive zum System »Ausbildungsverbund«.

Herr Frasch, Sie gelten als ein Experte rund um duale Berufsausbildung in Europa. Im Projekt »Deep IN WBL« war die Kooperation zwischen unterschiedlichen Akteuren dualer Ausbildungssysteme ein wichtiges Thema. Das österreichische Modell der Ausbildungsverbünde stieß dabei auf besonderes Interesse. Können Sie dieses Modell in kurzen Worten zusammenfassen und erklären, wo der Nutzen liegt? Robert Frasch: Bei Ausbildungsverbünden geht es im Großen einmal darum, Bereiche abzudecken, die ein einzelner Betrieb nicht abdecken kann. Hier helfen dann Kooperationen aus. Der große Nutzen ist, dass man ein Berufsbild in seinem gesamten Umfang ausbilden kann. Die Kooperationen kön-

Robert Frasch ist Gründer des Ausbildernetzwerks www.lehrlingspower.at, Leiter der Bildungs-Allianz des Senats der Wirtschaft Österreich, Chefredakteur des Fachportals www.ausbilden.co.at und Herausgeber von Lehrlingsausbildung in der Praxis. In zahlreichen Artikeln, Vorträgen und Key Notes klärt er national und international über das duale Ausbildungssystem auf und verleiht der Berufsausbildung damit eine unabhängige und starke Stimme.

nen dann helfen, wenn man als einzelnes Unternehmen die Ausbildungsverordnung nicht erfüllen kann. Sie können aber auf freiwilliger Basis ebenso viel Sinn ergeben, etwa wenn man Komponenten dazu holt, die der eigene Betrieb aufgrund seiner Kapazitäten nicht voll abdecken kann. So kann die Qualität der Lehrlingsausbildung gesteigert werden. Eine Ausbildungskooperation kann aber auch den Weg zur weiteren zwischenbetrieblichen Zusammenarbeit ebnen. Die Bedeutung von Ausbildungsverbünden wird in Zukunft noch Fortsetzung >

In der Krise neu durchstarten

zwar stellte uns kaum ein Jahr wie dieses vor private und berufliche Herausforderungen doch brachte es auch viel Positives hervor. So stand das Jahr 2020 unter dem Motto der Digitalisierung! Selbst die letzten TechnikkritikerInnen konnten mitunter eines Besseren

Das Forschungs- und Beratungsinstitut ABIF tat das Seine dazu, um entsprechend zu diesem Prozess beizutragen. In dieser Zeit entwickelte ABIF gleich mehrere Projektkonzepte, die sich mit der Digitalisierung in Aus- und Weiterbildung aber auch in der Bildungs- und Berufsberatung beschäftigten

Bereits im Juni 2020 veranstalteten wir mit AMS Österreich, REFAK und der Gewerkschaft GPA eine Online-Tagung zu Digitalen Lernräumen in der Erwachsenenbildung.

Im laufenden Projekt zu Kompetenzorientierung in der ÜBA (Überbetriebliche Lehrlingsausbildung) stellten wir unsere face-to-face geplanten Weiterbildungsseminare für Ausbildungsverantwortliche noch während des Lockdowns auf e-learning Seminare um. Die Evaluierung zeigte uns zwar, dass die digitalen Skills der TeilnehmerInnen hier entscheidend den Erfolg mitbeeinflussen, trotzdem war die Zufriedenheit mit dem Weiterbildungsangebot gut.

So arbeiteten Mag.^a Claudia Liebeswar und Mag.^a Andrea Egger-Subotitsch im Auftrag des AMS Österreich an einem **Überblick zu digitalen Arbeits- und Weiterbildungswerkzeugen,** u.a. mit dem Fokus auf Menschen mit Behinderung. Parallel dazu entwickelte ABIF in Kooperation mit versierten TrainerInnen **ein Ausbildungsangebot für Online-TrainerInnen**, das nicht nur als offene Online-Weiterbildung sondern vielfach auch inhouse für unsere Kundinnen angeboten wird.

Bereits bis Ende Juni 2020 erstellten Mag.a Karin Steiner, Mag. Michael Flotzinger sowie Margit Voglhofer, MA ein Handbuch zu Methoden in der Online-Beratung für das AMS

Deep IN WBL: Deepening Work-Based Learning Impact & womeN empowerment

Deep IN WBL widmet sich aktuellen Herausforderungen im Kontext von "Work-Based Learning" (arbeitsbasiertes Lernen) und zielt auf die Verbesserung dualer Ausbildungsprogramme in den Partnerländern durch gegenseitiges Lernen ab.

Aktuell befindet sich das Projekt auf der Zielgeraden und die Projektergebnisse werden in Kürze unter www.deepindualvet.eu abrufbar sein. Dazu zählen eine Sammlung von

Tätigkeitsprofile von Fachkräften, die an der Umsetzung dualer Berufsausbildung in den Partnerländern beteiligt sind; eine Aufstellung der wichtigsten rechtlichen Rahmenbedingungen im Bereich dualer Berufsausbildung; eine Sammlung unterschiedlicher Kooperationsstrukturen zwischen den verschiedenen Lernorten, Frauenförderung für die duale Ausbildung und Förderung der nicht-stereotypen Berufswahl.

Validierung in der beruflichen Weiterbildung: Austausch zu Theorie und Praxis

Der Valiskills Blog wird laufend um neue Blogartikel aktualisiert. Wer etwas über Validierungsansätze in den Ländern Deutschland, Schweiz, Norwegen, Niederlande, Polen und Österreich erfahren möchte, ist daher auf www.valiskills.eu bestens aufgehoben.

Interessierte sind herzlich eingeladen, die Blogartikel zu lesen und sich aktiv an den jeweiligen Diskussionen zum Thema zu beteiligen.

Im September wurden im Rahmen eines Partnermeetings in Wien zwei Validierungssätze aus Österreich vorgestellt. Doris Zagerbauer (WAFF) stellte das Wiener Anerkennungssystem (Nachholen des Lehrabschlusses) und Karin Reisinger (Weiterbildungsakademie) die Zertifizierung zur ErwachsenenbildnerIn vor.

Die Abschlussveranstaltung findet voraussichtlich im Frühjahr 2021 in Berlin statt. Dabei werden verschiedenen Ansätze und Methoden von Kompetenzfeststellungen aus den Partnerländern durchgespielt. Abif wird dabei die neuen "Check Your Future" Karten für Menschen mit geringer Qualifikation vorstellen, die auf Bildern und einfacher Sprache aufbauen und von der Vereinigung österreichischer Bildungs- und BerufsberaterInnen entwickelt wurden.

Description

Recent studies carried out by the European Training Foundation (ETF) and Cedefop point out that WBL provides important benefits, by increasing employability and smoother school to work transition, by reducing skill shortages and gaps, and by reducing youth unemployment, increasing entrepreneurship and innovation and fostering social inclusion. But we have to bear in mind that WBL in formal VET is a broad concept with different interpretations in different Member States and different stages of development. At the same time, as work-based learning is becoming more and more prominent in VET in Europe, more emphasis is placed on the cooperation and continuous dialogue between different learning venues, but this cooperation is differently organised and is highly dependent on the tradition in the country. For instance, cooperation between VET institutions and companies is required by law in Germany and Austria, while in Spain and Greece is required by sectoral or institutional arrangements and is defined on a case-by- case basis in Italy.

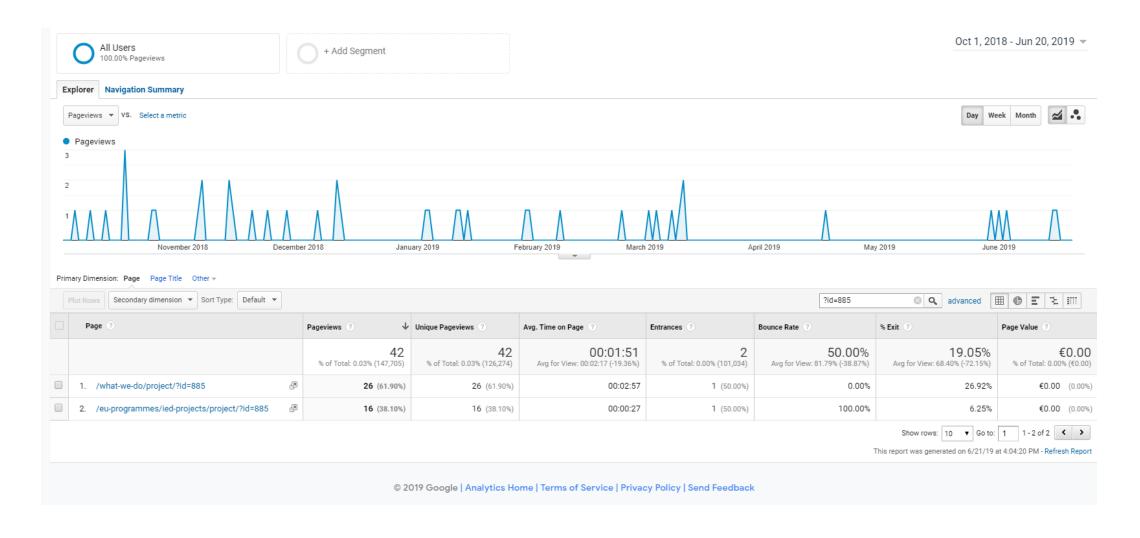

Objectives

The main objective of the project is fostering a closer engagement in WBL by promoting a better understanding of: • The role of the different professionals involved in the implementation of the WBL • The practices implemented to strengthen cooperation between teachers and trainers to improve the quality of VET, its responsiveness to the labour market needs and ensuring learners high quality learning experiences • The practices implemented to empower women in WBL

reduction of youth unemployment

Q

Work-based learning is an idea that promotes entrepreneurship, can help with the transition from school to work environment and can, of course, help minimize the unemployment rate all around Europe. It is an idea highly linked to VET and supported by the European Union. Although in many countries WBL is sort of obligatory with VET institutions being in cooperation with companies, by law, in other countries it is more of a choice.

The profits of work-based learning can be seen throughout Europe, by the countries that have already been implementing this training. The results are obvious and they are good. Therefore the European Union supports these actions by making sure to set out calls for actions for European Projects that will continue promoting work-based learning.

The Institute of Entrepreneurship Development, being the strong stakeholder that it is, when it comes to entrepreneurship and being a very reliable experiences EU Project partner all around Europe, is once again ready to follow these calls by implementing the **Deepening Work-Based Learning (DEEP IN WBL) Project.** The main objective of the project is fostering a closer engagement in WBL by promoting a better understanding of:

- . The role of the different professionals involved in the implementation of the WBL
- The practices implemented to strengthen cooperation between teachers and trainers to improve the quality of VET, its responsiveness to the labor market needs and ensuring learners high-quality learning experiences

the quality of VET, its responsiveness to the labor market needs and ensuring learners high-quality learning experiences

• The practices implemented to empower women in WBL

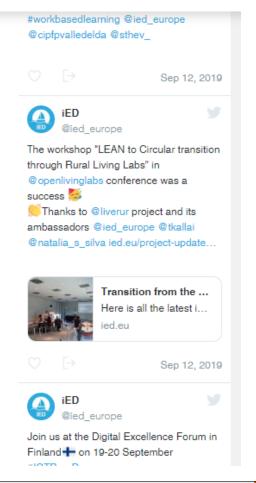

It is completely reasonable to assume that change, any kind of change, is never very easy. Especially not when we are talking about a sector in which every little change can make or break everything. Work-based learning demands a lot of time and a lot of changes to take place. In many countries, this might actually take even longer.

The Institute of Entrepreneurship Development is ready to take on the difficult task of implementing these actions and making sure that positive change will be promoted in every case. This is after all the right way to promote entrepreneurship.

And never forget that, nowadays, entrepreneurship is the best way for men and women all around the world to manage and make their dreams come true. Starting from the school to work transition all the way to work-based learning, entrepreneurship will be the next step to bring people to a state where they will know what their professional dreams are and will be able to make them a reality.

learning is not just about learning and developing your skills while working. It is about learning how to do a particular job, you are interested in before you become a professional at it and before you even start with your **potential internship**. As a result, **work-based learning** is nowadays very commonly met at schools and universities.

There are many **European Projects** out there that are focusing on improving and evolving the current form of work-based learning. Projects like DEEP IN WBL are aiming in fostering a closer engagement in **WBL** by promoting a better understanding of:

- . The role of the different professionals involved in the implementation of the WBL
- The practices implemented to strengthen cooperation between teachers and trainers to improve
 the quality of VET, its responsiveness to the labor market needs and ensuring learners high-quality
 learning experiences
- · The practices implemented to empower women in WBL

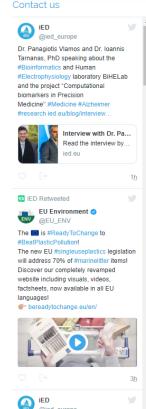

The **organizations implementing** this project are responsible to collect all the important data, that will explain the **WBL** state of their countries. For example, **IED** is able to provide all the **WBL** Professionals job profiles and frameworks information for **Greece**. That information clearly states the most popular professional profile in work-based learning. For **Greece** these are the following:

- 1. Teacher
- 2. In-Company Trainer
- 3. Trainers of Initial Vocational Training (Adult Trainers)

Work-based learning projects are aimed at helping future employees learn new skills and competencies and promote their work. At the same time, they try to bring teachers and trainers closer to businesses and industries. That way WBL will be promoted in the actual work place which is the next step for the evolution of the process. The partners working on these projects, will collect and release the most important information regarding work-based learning in their countries which will provide a good view af WBL and the way it evolves on each European country!

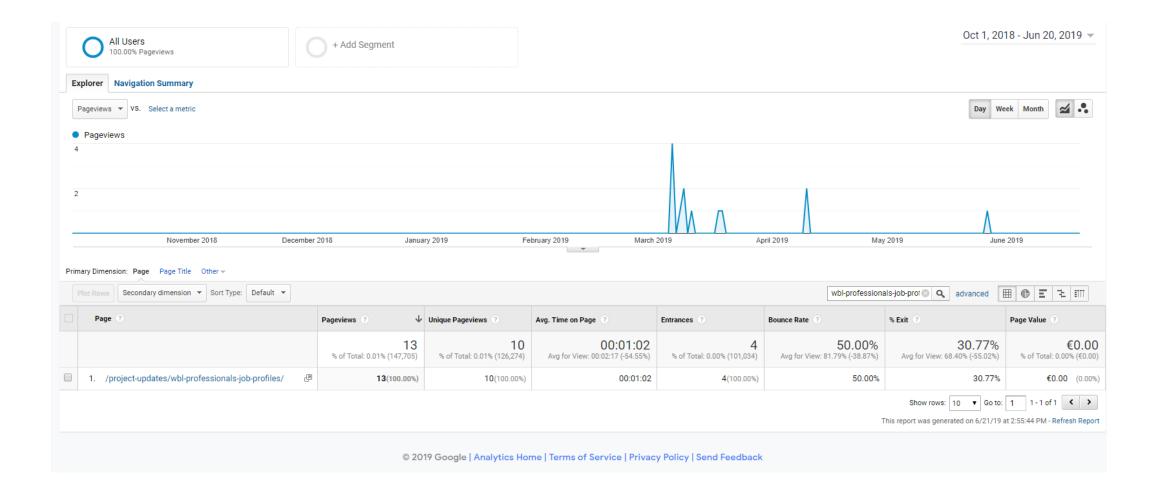

We're excited for winning the

EDUCATION

Deep in WBL - Final Meeting

Vasilis Bouronikos | 23 December, 2020 | 2 min(s) read

The partners of the Deep in WBL Erasmus+ project met for the last time on 9th December 2020. As it happens for all good things, every beginning has an end. Fortunately, Deep in WBL project's legacy has an immense value for the European work-based learning (WBL) in formal VET. WBL and VET are considered key to youth upskilling and employability by ensuring a smooth transition from school to work.

Deep in WBL Objectives and Deliverables

Apart from the general aim of improving WBL and VET in the partner countries, the consortium defined more specific objectives. Particularly, the identified objectives from the beginning of the project were:

- The role of the different professionals involved in the implementation of the WBL
- The practices implemented to strengthen cooperation between teachers and trainers to improve the quality of VET
- The responsiveness to the labor market needs and ensuring learners high-quality learning experiences
- The practices implemented to empower women in WBL

The partnership did a great job meeting the objectives set above with a series of five deliverables in two years. For all these outcomes to become a reality, the partnership did extensive research on WBL and VET training in their respective countries. In particular, this research involved an analysis of the legal framework, job profiles of WBL professionals and best practices in cooperation structures, and women's participation in

JOB-CAREER GUIDANCE

Guide on New Cooperation Paths in WBL

iED Team | 23 September, 2020 | 2 min(s) read

Work Based Learning has been highlighted as a very significant process in various research projects and reports from VET providers, trainers & students, HEIs, schools, and training and postsecondary education centers. Through **Work Based Learning**, graduate students achieve a practical and real understanding of their profession, they are being integrated in the work market, they actively participate in the production process, and most importantly they are developing their professional skills, while the companies that offer it can, integrate new elements in their teams. It is therefore, a very important bridge between education and professional life.

The project **Deep in Work Based Learning** responded to some of the current challenges faced in the context of Work-Based Learning, such as the political control and the involvement of social partners, the support for training companies, the process of making dual forms of training more attractive, some quality assurance issues and the improvement of the number of women taking part in dual forms of training.

The project completed its last deliverable, **Guide on New Cooperation Paths: Identification of Innovative Paths of Cooperation between Professionals Involved in Work Based Learning.** This report is the result of an online survey in which every partner disseminated a questionnaire to the project's target groups. The online survey was sent to vocational schools, training centers and companies that welcome young people to carry out apprenticeships in the workplace. Its goal was to identify existing cooperation practices, possible cooperation structures, existing difficulties or threats, offering to the participants the opportunity to

Kahramanmaraş İl Milli Eğitim Müdürlüğü'nün proje ortağı olarak yer aldığı ve ARGE birimi Avrupa Birliği Projeler ekibinin yürütmekte olduğu Erasmus + Mesleki Eğitim Stratejik Ortaklıklar programı kapsamında "İş Tabanlı Öğrenmenin Etkilerinin Derinleştirilmesi ve Kadın Profilinin Güçlendirilmesi" başlıklı projenin açılış toplantısı 21 Kasım tarihinde İspanya'nın Valencia şehrinde gerçekleştirildi.

Proje toplantısında ortak kurum temsilcileri kendi kurumlarını tanıtan sunumlar gerçekleştirmiş ve koordinatör kurum da projeyle ilgili bilgiler vererek yürütme aşmasında yapılması gereken yerel ve uluslararası faaliyetler konusunda bilgilendirme yapmıştır. Kahramanmaraş İl Milli Eğitim Müdürlüğü'nü temsilen Şube Müdürü Cuma DOĞAN ve AB Proje Koordinatörü Cevdet ÜSTÜN katılım gerçekleştirmiştir.

İş Tabanlı Öğrenme ile kadın profilinin güçlendirilmesine yönelik çalışmalar ile İş Tabanlı Öğrenmenin daha doğru anlaşılması ve kalitesinin arttırılmasını hedeflemektedir. İspanya'dan Zaragoza Sanayi ve Ticaret Odası'nın koordinatör olduğu bu proje, Almanya, Portekiz, İtalya, Avusturya ve Yunanistan'dan kurumların ve İl Milli Eğitim Müdürlüğü'nün ortaklığı ile yürütülmektedir. Proje kapsamında iş tabanlı öğrenmenin daha doğru anlaşılması amacıyla çeşitli araştırma ve yaygınlaştırma çalışmaları yapılacaktır.

Kahramanmaraş İl Milli Eğitim Müdürlüğü ARGE Birimi Projeler Ekibi tarafından organize edilen Erasmus+ Programı 2019 Teklif Çağrısı Dönemi Bilgilendirme Toplantısı Necip Fazıl Kısakürek Kültür Merkezi'nde gerçekleştirildi. Onikisubat ve Dulkadiroğlu ilçelerinden idareci ve öğretmenlerin katıldığı toplantı, İl Milli Eğitim Müdürü Cemal YILMAZ'ın açış konuşması ile başladı.

Cemal YILMAZ yaptığı konuşmada Erasmus+ programının, proje faaliyetlerine katılan öğretmenlerimize ve öğrencilerimize yaptığı katkının önemini vurgulayarak eğitim sistemleriyle ilgili yurtdışında tanık olduğu bazı çarpıcı deneyimleri paylaştı. YILMAZ, eğitim sistemleriyle ünlü bazı Avrupa ülkelerine oranla çok fazla sayıda öğrencimiz olmasına rağmen ülkemizin pek çok konuda daha iyi düzeyde olduğunu belirtti. Katılımcı öğretmenlerle, e-posta adresinden ve sosyal medya hesaplarından eğitimle ilgili her konuda kendisine her an ulaşabileceklerini hatırlattı. Sorumlu Şube Müdürü Cuma DOĞAN ve ARGE Birimi Erasmus Projeler ekibinin verimli bir şekilde proje faaliyetlerini yürütmekte olduğunu belirten YILMAZ, konuşmasının sonunda katılımcılara başarılar diledi.

Toplantının ilk bölümünde ARGE Birimi Proje Koordinatörleri Cevdet ÜSTÜN ve Sebahattin GÖKTALAY, Avrupa Birliği programları ile ilgili sunumlar gerçekleştirdiler. Erasmus+ Programı başvuru prosedürü, Webgate kayıt işlemleri, ortaklık yapısı ve ortak bulma platformları, Erasmus+ Program öncelikleri, örnek proje konuları, başvuru formunda örnek bölümlerin incelenmesi, değerlendirme kriterleri, 2018 yılı proje başvuru ve kabul sayısal bilgileri vb bölümlerden oluşan sunumlar katılımcılarla paylaşıldı.

Toplantının ikinci bölümünde ise Erasmus+ Okul Eğitimi Alanında Stratejik Ortaklık projesi yürütmüş olan öğretmenler, "Örnek Proje" sunumları gerçekleştirdiler. Önce Zekeriya Tanrıverdi İmam Hatip Ortaokulu İngilizce Öğretmeni Recep AKÇAKAYA uygulaması tamamlanmış olan bir projenin detaylarını katılımcılarla paylaştı. Daha sonra Erdem Bayazıt Anadolu Lisesi İngilizce Öğretmeni Melike ARSAN son başvuru döneminde kabul edilmiş olan Stratejik Ortaklık projesi ile ilgili sunum yaptı. Örnek projelerin çıkış noktası, konu seçimi, projelendirme ve planlama süreci, başvuruda dikkat edilen hususlar, başarılı uygulamalar ve proje ürünleri vb ayrıntıları, proje hazırlama sürecinde faydalanmaları için katılımcılar ile paylaşıldı.

Toplantı, son başvuru tarihlerinin hatırlatılması ve soru cevap bölümü ile sona erdi.

Projelerimizden detaylı olarak bahsetmek gerekirse:

İlk projemiz; Ortak olarak yer aldığımız Mesleki Eğitim Alanında Stratejik Ortaklık KA 202.

Müdürlüğümüzün ortak olduğu "Deepening WBL Impact & womeN empowerment - DEEP IN WBL" (İs Tabanlı Öğrenmenin Etkilerinin Derinleştirilmesi ve Kadın Profilinin Güçlendirilmesi) başlıklı proje, İs Tabanlı Öğrenme ile kadın profilinin güçlendirilmesine yönelik çalışmalar ile İş Tabanlı Öğrenmenin daha doğru anlaşılması ve kalitesinin arttırılmasını hedeflemektedir. İspanya'dan Zaragoza Sanayi ve Ticaret Odası'nın koordinatör olduğu bu proje, Almanya, Portekiz, İtalya, Avusturya ve Yunanistan'dan kurumların ve İl Milli Eğitim Müdürlüğü'müzün ortaklığı ile yürütülmektedir.

İkincisi de, yine ortak olarak yer aldığımız Yetişkin Eğitimi Alanında Stratejik Ortaklık KA 204.

Müdürlüğümüzün ortak olduğu "Senior Education for Active Living" (Aktif Yaşam için Yaşlı Eğitimi) başlıklı proje, yaşça büyük bireylerin eğitimi konusunda deneyimleri ve iyi uygulamaları paylaşmayı, uluslararası işbirliği içerisinde evrensel eğitim araçları geliştirmeyi ve etkin hale getirmeyi, bu bireylerin psikolojik ve fiziksel yönden sosyal hayata aktif katılımlarını desteklemeyi hedeflemektedir. Polonya'dan bir kurumun koordinatörlüğündeki bu proje, İtalya ve Cekya'dan diğer kurumların ortaklığı ile yürütülmektedir.

Ve son olarak da, ARGE Birimi Avrupa Birliği projeler ekibi olarak İl Milli Eğitim Müdürlüğü'müzün Türk Ulusal Ajansı'na sunduğu "Social Media Addiction, Social Life's Extinction" (Sosyal Medya Bağımlılığı, Sosyal Hayatın Tükenisi) başlıklı proje teklifi değerlendirme sürecinde hibe almaya hak kazanmıştır ve müdürlüğümüzün koordinatörlüğünde yürütülmektedir. Okul Eğitimi Alanında Stratejik Ortaklık olan projemiz 2018 - 2020 arasında uygulanacaktır. Projemizin ortakları, Dulkadiroğlu Rehberlik ve Araştırma Merkezi, İspanya'dan bir yerel eğitim otoritesi ile bir okul, ve Polonya'dan da bir teknoloji merkezidir.

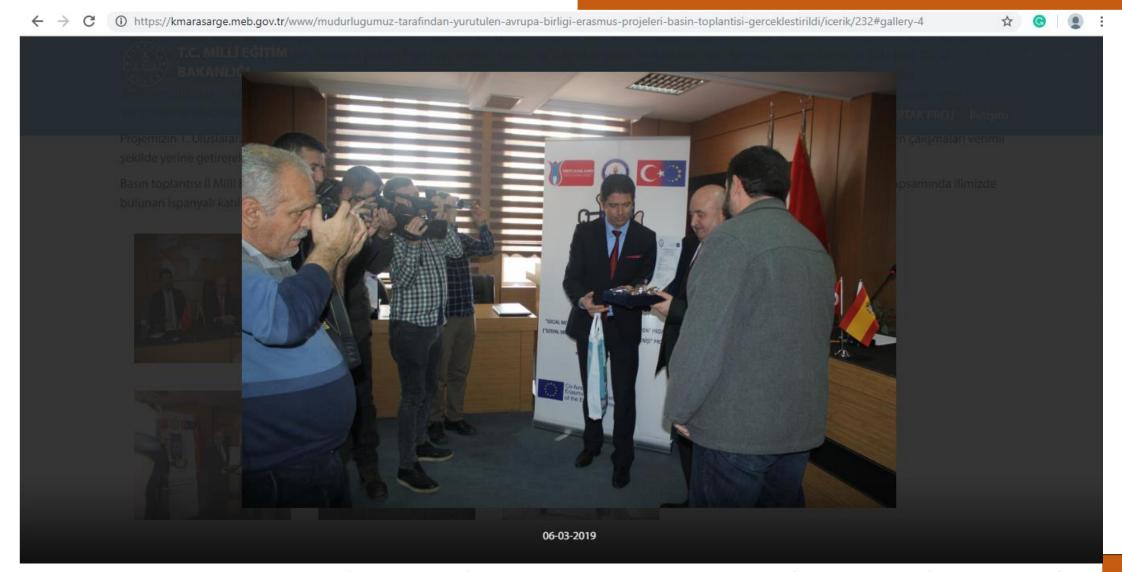

Sosyal medya platformları gençlerimizi, ders çalışmaktan, kitap okumaktan, aile ve arkadaşlarla kaliteli vakit geçirmekten alıkoymaktadır. İnternetin bilinçli kullanılmasının öğretilmesi, öğrencilerimizin bilinçlendirilmesi gerekmektedir.

Bu doğrultuda projemiz, özellikle öğrencilerde ortaya çıkan ve tamiri mümkün olmayan etkileri ile okul başarısını olumsuz etkileyen "sosyal medya bağımlılığı"nı konu almaktadır. Yerel ortağımız olan Dulkadiroğlu Rehberlik ve Arastırma Merkezi'yle yapılan isbirliği cercevesinde belirlenen bazı liselerde veli, öğrenci ve öğretmen ankatlari uugulanasaletu. Erasmus + KA 202 Mesleki Eğitim Projesi Deep In Wbl Proje Toplantısı Pandemi Dolayısıyla Online olarak Gerçekleştirildi

Kahramanmaraş İl Milli Eğitim Müdürlüğü'nün proje ortağı olarak yer aldığı ve AR-GE birimi Avrupa Birliği Projeler ekibinin yürütmekte olduğu Erasmus + Mesleki Eğitim Stratejik Ortaklıklar programı kapsamında "İş Tabanlı Öğrenmenin Etkilerinin Derinleştirilmesi ve Kadın Profilinin Güçlendirilmesi" başlıklı projenin üçüncü ulusötesi toplantısı 11/06/2020 tarihinde online olarak gerçekleştirildi.

6-7 Nisan 2020 tarihlerinde Portekiz-Arcos de Valve Dez kentinte yapılması planlanan toplantının Covid-19 salgını nedeni ile iptal edilmesi sonucunda online olarak gerçekleştirilen proje toplantısında ortak kurum temsilcileri koordinatör kurum tarafından kendilerine verilen görevlerle ilgili yapılan çalışmaların sunumunu gerçekleştirdiler.

Toplantıya Kahramanmaras İl Milli Eğitim Müdürlüğü'nü AB Proje Koordinatörü Muttalip NACAR katılmıştır.

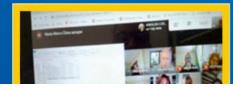

Gerçekleştirilen proje faaliyetleri, ortaya çıkarılan iş paketleri, ortakların kendi şehirlerinde yürüttüğü tanıtım ve yaygınlaştırma etkinlikleri ve bundan sonra yapılacak faaliyetler toplantının ana gündem başlıklarını oluşturmuştur.

İş tabanlı öğrenmenin etkilerinin derinleştirlmesi ile kadın profilinin güçlendirilmesine yönelik çalışmalar, iş tabanlı öğrenmenin daha doğru anlasılması ve kalitesinin arttırılmasını hedeflemektedir.

İspanya'dan Zaragoza Sanayi ve Ticaret Odası'nın koordinatör olduğu bu proje, Almanya, Portekiz, İtalya, Avusturya ve Yunanistan'dan kurumların ve İl Milli Eğitim Müdürlüğümüz'ün ortaklığı ile yürütülmektedir. Proje kapsamında iş tabanlı öğrenmenin daha doğru anlaşılması amacıyla çeşitli araştırma ve yaygınlaştırma çalışmaları yapılacaktır.
